DETAILED ACTION

This action is in response to Applicant's amendment received on 21 May 2007.

Response to Arguments

1. Applicant's arguments, see Remarks filed 21 May 2007, with respect to claims 37-58 have been fully considered and are persuasive. The 35 USC 103 rejection of claims 37-58 has been withdrawn.

Allowable Subject Matter

2. Claims 37-58 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Claims 37-58 are allowed because the prior art fails to disclose or suggest in combination with other limitations of the claim, an expandable filtration assembly being attached to the elongate member as claimed. Barbut et al. fail to disclose the expandable filtration assembly being attached to the elongate member proximally of the distal end of the elongate member and extending distally beyond the distal end of the elongate member. Examiner agrees that the expandable filtration assembly of Barbut et al., as shown in Figure 22, has support struts (300) attached to the distal end of the elongate member instead of being attached to the elongate member proximally of the distal end of the elongate member.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
